

SAVING LIVES

BUSINESS CONCEPT

We shall always offer high-quality protection products to both the national and international market, which we develop in close collaboration with our end users. By being responsive to customer needs and ensuring open dialogue, we can create long-term relationships that save lives by way of our expertise and good service. We will work to ensure sustainable development - for ourselves, as well as for our customers.

COMPANY POLICY

Our company shall be characterised by quality, innovation, technical expertise, efficient and flexible processes, environmental awareness, and dynamic people who are willing to work in a changing world.

Our products shall be the most innovative available, which we ensure by way of our ongoing research and development efforts and our close co-operation with end users.

Our customers' needs and wishes are catered for by way of our professional communication, efficient order management, secure and structured production, and effective quality control, distribution, and market support.

Our customers should perceive us as being the best in the market in our industry. We ensure this by way of regular customer satisfaction surveys and by taking necessary measures and making necessary improvements.

Our employees are our most important resource. This means that recruitment, skills development, commitment and motivation, as well as systematic work environment efforts are all high-priority areas.

Our quality and environmental work shall be characterised by ongoing improvement and preventative measures to prevent injury or damage to the environment. Our environmental declaration serves as the basis for our day-to-day work. We shall comply with all applicable laws, regulations, legislation, and other requirements.

Borås, 8 May 2020
